LANGUAGES KNOWN

- Hindi (Both)
- English (Both)

CERTIFICATIONS

- ADVANCED MACHINE LEARNING: DATA-DRIVEN INSIGHTS AND MODELS

ACHIEVEMENTS

- All rounder, Department topper, Top 3 in class, Sportsman in B.Tech
- All rounder, Top 10 in class, Received scholarship, School cricket team Captain Domestic x InterZonals in school

TEST RANKS

- JEE Mains : 256486

EDUCATION

Graduation

Course	B.Tech (Ai-ml)
College	Vivekanand Institute of Professional Studies (VIPS), Delhi, New Delhi
Score	8.5%

Class XII

Board Name	CBSE
Medium	English
Year of Passing	2021
Percentage	90%

Class X

Board Name	CBSE
Medium	English
Year of Passing	2019
Percentage	92%

INTERNSHIPS

Appsquadz Technologies, June 2025 - July 2025

- Internship in AWS and DevOps, covering concepts from basics to advanced. Gained hands-on experience with core AWS services like EC2, S3, IAM, VPC, Lambda, and RDS. Worked on designing and deploying scalable and secure cloud infrastructure. Practiced DevOps workflows including CI/CD pipelines using Jenkins, version control with Git, and containerization with Docker. Explored infrastructure as code using Terraform and automation through shell scripting. Also learned cloud monitoring with AWS CloudWatch and logging tools. This internship strengthened my practical knowledge in cloud architecture, continuous deployment, and system reliability.

AccioJob, June 2024 - July 2024

- Internship Experience:
I completed a four-week internship focused on Data Structures & Algorithms (DSA) and MERN Stack Development, where I gained hands-on experience in full-stack web development. During the program, I built a personal portfolio website using HTML, CSS, and JavaScript, showcasing my skills and resume. I also developed several interactive mini-projects such as Tic-Tac-Toe, Flappy Bird, and a simple Quiz App, enhancing my understanding of JavaScript and DOM manipulation. All projects were successfully deployed on GitHub, demonstrating my ability to write clean, functional code and manage version control effectively.

PROJECTS

GenAI-101 Workshop, March 2025 - March 2025

- Developed a simple HTML, CSS, and JavaScript-based website that displays random horse facts on button click. Used an array of facts with DOM manipulation to update content dynamically. Added slight animations for smooth transitions and improved user experience. Focused on clean UI, responsive design, and beginner-friendly code structure.

Personal Portfolio Website, June 2024 - June 2024

- I created a personal portfolio website using HTML, CSS, and JavaScript, featuring a modern UI, interactive elements, hyperlinks, and a resume download option to showcase my skills and projects effectively.
